

HOW TO MEASURE AND FIT GUIDE

[← BACK TO SIZING CHART](#)

STEP 1 MEASURE YOURSELF

Collect measurements for your chest (bust for females), waist, hips, and sleeve length. You may not be required to collect every measurements based on the style. Please refer to the specific Sizing Chart of the style you are interested in to determine what measurements are needed.

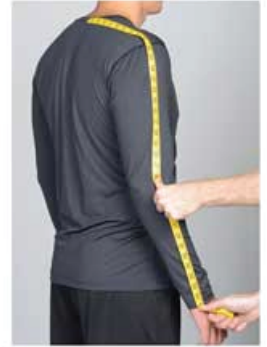

CHEST
Measure around the fullest part of your chest, keeping the measuring tape horizontal.

WAIST
Measure around the narrowest part (typically the small of your back and where your body bends side to side), keeping the tape horizontal.

HIPS
Measure around the fullest part of your hips, keeping the tape horizontal.

SLEEVE LENGTH
Relax arm and measure from the centre of the back of the neck, over the shoulders, to the elbow, and down to the outer wrist where your cuff typically fits.

STEP 2 FIND YOUR SIZE

To determine the best size for you, compare your measurements to the Sizing Chart of the Stormtech style you are interested in. Please note that some measurements are not applicable to all styles. If you're on the borderline between two sizes, select the smaller size for a slimmer fit or the larger size for a more relaxed fit. If some measurements are in one size and the remainder are in another size, select the larger size. We also always recommend ordering size samples to ensure the most accurate fit.
